

Comments	How could the conference have been improved?	What future topics would you like to see presented at conference
Increase availability of	Cakes and biscuits at tea time	Paper free, more on PN standards, communication
I like the fact that conference was only one day, during working week, more manageable		
	Does it need to! Excellent	Aspects of how affecting our role, criminalisation of STI's
More toilet facilities	Only asking for delegates numbers, very good, especially, HA direct line clinic number	Being managed, tendered out to private sectors? How do we manage?
Well organised, appropriate amount of time allocated to each speaker, toilet facilities could be improved	Excellent conference	Nil as current topics are being discussed
	Delegate list is useful for networking. Very well put together.	Examples of training programmes for new staff, junior nurses. Liverpool has a very nice and new refurbished unite office if you are looking for venues.
	Rep areas rather cramped, sound/audio could be improved, food great	PN and use of social networks/dating websites/gaydar etc

Very impressed with everything. Thanks and well done to organisers	I can't think of how it could be improved, good food, comfortable, thank you	Enjoyed "on the pitch" good to share innovations of what topic!
	Overall very good informative day	POCT and Hep C
	Break out sessions, as a new HA it would have been nice to have more opportunities to meet colleagues	
Bit cool with air conditioning. Venue very accessible although in North easy to attend here. Food great.	Small break off group to discuss ethical issues or competencies	Men advice, review of MI in practice. Some really good work going on out there, it would be great to see this on the website. Short overviews or PowerPoint presentations even if not published. Achieve of good published research.
	Motivational interviewing experience of risk reduction	
Excessively bright lighting overhead, otherwise great venue	More central location, long travelling time	Pros/cons of dual role Nurse Practitioner compared with HA role
	Excellent day, lovely lunch, very interesting subjects and debates	
	Happy with what you presented/ provided	

	I think the conference was excellent. Overall very happy with what was provided	With all the upheaval happening, debanding/ posts going what as a union and professional body can we do to help protect both ourselves and others, what practical support is there? Battles seem to be taught as a unit/ to unit nothing nationally but nationally can be done? To fight back. How can we be more proactive?
Fab food, fab venue, fab event, very informative and fun		
		Innovations- share examples of good practices from all over the country
Difficult to see projection screen		
On the application form which addressed dietary requirements, I put down lactose intolerance but there was only cows milk available today		
	No suggestions really, great venue, great programme and very enjoyable day. Being able to network with other HA in this difficult climate is very important	Keep providing affordable one day conferences which we can attend and support
		Criminalisation of HIV-case study, syphilis outbreaks and follow up

	The technology - microphone	
Enjoyed the day thank you	Biscuits with tea	Electronic paper records, criminalisation, PEPSE
	Would like a 2 day event for networking and also given the travel distances people have travelled. List of names/delegates (contact no's, emails) for networking.	P.O.C.T and Hep B & C info
	Better toilet facilities i.e. not queuing for ladies. Discussion re the failed herpes man	A problem solving/sharing discussion forum
	Better toilet facilities for women	More group work and study/workshops
	More scenarios, workshops or group work	Role play for dilemmas
	Thoroughly enjoyed the day, hopefully have a yearly day like this one	Would like more ethics
Would have been good to know where NPC were staying last night and precise details of where they were going for a drink		
Very well organised		
	Excellent content considering it is first 1 day conference-well done	
Biscuits in the coffee break please	More external speakers	Psychological approaches/interventions/sexual assault

		PEP adherence and any long term effects. Safeguarding issues young people and vulnerable adults
	The catering was great but tea/ coffee was a bit disorganised. The conference was interesting and thought provoking	The role of the HA in the “improved” NHS
Brilliant venue, great pace, lively conference		Clinical supervision-more detailed info, ethical issues-non HIV related
		Just wondering whether including a focal evening would be possible?
		Syphilis cases
	Audio visual could have been better. Presentation difficult to see bottom of screen	
		More on ethical dilemmas in HIV
Good venue & excellent lunch	Really interesting topics and fast paced! Could have done with some biscuits	
	Provide a map for venue & access to nearest tube/train station for participants who not familiar to the venue	
	can't think of anything, well worth the journey along the M4	Challenges with working with HIV+ve (vertically transmitted infection) Y.P .

	Ethics workshop maybe-1/2 day study (at another time as it's a big hot topic which needs time) Less emphasis on PN (more info on website to share practice developments)	More ethics please! Child testing/integration of child/adult service HIV. Discussing HIV with children of +ve parents. Initiative community based testing- share more good practice
	Really enjoyed the day, great lunch! Great venue and great to be outside London but near transport-easy!	Integrated sexual health-how has it affected the health advising role, some possible examples.
	Drawing together of what can be 'taken away' from the day to use in our own clinics
