

Sexual Health Adviser: The developing role

Sexual Health Advisor : The developing role (NA6134) 20 Level 6 credits

This module will explore current issues in sexual health with relation to the developing role of the sexual health advisor. This will equip students to strengthen their practice with an increased knowledge of potential challenges, enhanced skills and a greater personal and professional self- awareness to more effectively and innovatively meet clients' sexual health needs.

This exciting and thought provoking programme will include teaching on contemporary issues such as chem-sex, sexual assault, the adult film industry, domestic abuse and also the Trans* community.
