Dear Martin

Following oral and written evidence provided by yourself and over fifty other leading figures and experts in our field late last year, you will be aware that the APPG recently published its report, formally entitled *Breaking down the barriers: the need for accountability and integration in sexual health, reproductive health and HIV services in England*.

The Inquiry received far-reaching and high level evidence from across the health system, including from the Department of Health, Public Health England, Health Education England, the Local Government Association, the Association of Directors of Public Health, Healthwatch, the Care Quality Commission, the Faculty of Public Health, NHS England, the English HIV and Sexual Health Commissioners Group and several Local Authorities and Royal Colleges.

Please find enclosed a copy of *Breaking down the barriers* for your own further reading.

Should you wish to discuss any of the matters raised in the reports further please contact me via [appg@fpa.org.uk](mailto:appg@fpa.org.uk) or call Harry Walker on 0203 751 8077.

Yours sincerely

Baroness Gould of Potternewton  
Chair, All-Party Parliamentary Group on Sexual and Reproductive Health in the UK
